Combines and extends capabilities from both skills management and work management into a single people solution for the future of work.

Talent Ecosystem | Sentiment Analysis | People Analytics | Listening | Learning Pathways | HR Projects

## FUTURE OF WORK

UNLOCK HUMAN POTENTIAL TO CREATE HIGH-IMPACT  
BUSINESS OUTCOMES WITH OPUSVIEW.

People-tech for business leaders and employees to  
succeed in the modern agile era.

Understand the  
competencies we have,  
and who has them.

Organize an ecosystem of  
trusted skillets and  
domain expertise.

Self-service model allows  
for people to network  
effectively.

Visualize demand for  
skillsets, and where they  
are needed.

Listen to employees to  
improve engagement,  
satisfaction and culture.

Work opportunities  
promote gigs to increase  
employee engagement.

With team suggestions,  
create a diverse and  
inclusive work culture.

Scale skills acquisition  
with pathways to  
self-directed learning.
